Dear Mr. Klotz,

This summer is my third year of studying computer science, which is also the third coop work-term I have completed. So, I wrote a report called “Architectural Pattern” to demonstrate both aptitude and technical skills I improved from this experience, and to thank all my colleagues and my Manager, Xiaoshu, for their advice.

Xiaoshu Chen is an experienced product delivery manager. He is the organizer of every meeting, monitoring my process and giving his valuable advice.

The overall evaluation of the work term is good, and I learned architecture pattern by implementing with MVC framework.

This report has been prepared and written entirely by me and has not received any previous academic credit at this or any other institution.
